

千葉大学大学院理学研究科における学位論文の評価基準について
About the Chiba University Graduate School of Science's
Evaluation Criteria for Theses

博士後期課程

Doctoral Program

(数学・情報数理学コース)

博士学位論文は、「数学・情報数理学」に関連する内容で、独創性、新規性、普遍性、論証性などの高い学術的価値が含まれ、学術論文として論理的にまとめられており高度な完成度を備えられているかどうか、ならびに学位申請者が学術研究における倫理性を有しているかどうかを基に審査する。

(Department of Mathematics and Informatics)

The doctoral thesis is judged by its contents, which must be related to mathematics or informatics; by whether it is of high scientific value in terms of its originality, novelty, universality, demonstrability, and other characteristics; by whether it is logically organized as a scientific paper and possesses a high degree of perfection; and by whether the degree candidate has conducted his/her scientific research according to established ethical standards.

(物理学コース)

博士学位論文は、「物理学」に関連する内容で、独創性、新規性、普遍性、論証性などの高い学術的価値が含まれ、学術論文として論理的にまとめられており高度な完成度を備えているかどうか、ならびに学位申請者が学術研究における倫理性を有しているかどうかを基に審査する。

(Department of Physics)

The doctoral thesis is judged by its contents, which must be related to physics; by whether it is of high scientific value in terms of its originality, novelty, universality, demonstrability, and other characteristics; by whether it is logically organized as a scientific paper and possesses a high degree of perfection; and by whether the degree candidate has conducted his/her scientific research according to established ethical standards.

(化学コース)

博士学位論文は、「化学」に関連する内容で、独創性、新規性、普遍性、論証性などの高い学術的価値が含まれ、学術論文として論理的にまとめられており高度な完成度を備えているかどうか、ならびに学位申請者が学術研究における倫理性を有しているかどうかを基に審査する。

(Department of Chemistry)

The doctoral thesis is judged by its contents, which must be related to chemistry; by whether it is

of high scientific value in terms of its originality, novelty, universality, demonstrability, and other characteristics; by whether it is logically organized as a scientific paper and possesses a high degree of perfection; and by whether the degree candidate has conducted his/her scientific research according to established ethical standards.

(生物学コース)

博士学位論文は、「生物学」に関連する内容で、独創性、新規性、普遍性、論証性などについて高い学術的価値が含まれ、学術論文として論理的にまとめられており高度な完成度を備えているかどうか、ならびに学位申請者が学術研究における倫理性を有しているかどうかを基に審査する。

(Department of Biology)

The doctoral thesis is judged by its contents, which must be related to biology; by whether it is of high scientific value in terms of its originality, novelty, universality, demonstrability, and other characteristics; by whether it is logically organized as a scientific paper and possesses a high degree of perfection; and by whether the degree candidate has conducted his/her scientific research according to established ethical standards.

(地球科学コース)

博士学位論文は、「地球科学」に関連する内容で、独創性、新規性、普遍性、論証性などの高い学術的価値が含まれ、学術論文として論理的にまとめられており高度な完成度を備えられているかどうか、ならびに学位申請者が学術研究における倫理性を有しているかどうかを基に審査する。

(Department of Earth Sciences)

The doctoral thesis is judged by its contents, which must be related to earth sciences; by whether it is of high scientific value in terms of its originality, novelty, universality, demonstrability, and other characteristics; by whether it is logically organized as a scientific paper and possesses a high degree of perfection; and by whether the degree candidate has conducted his/her scientific research according to established ethical standards.
